## Epoxy Tops signature core colors

for Epoxy Resin Products

Formaspace offers Epoxy Resin worksurfaces and products in a popular selection of signature core colors. This includes Black Onyx, Graphite, Dark Khaki, Tan, Gray, and Lunar White. Custom and special order colors are also available.

To learn more and request samples, either by individual color or the full selection of core colors, please get in touch with a representative via email at [hello@epoxytops.com](mailto:hello@epoxytops.com), or by phone at 844.735.6438. Send contact information, color choice[s], and quantities needed, and a representative will be happy to fulfill your request.

*Disclaimer: This spec sheet is to be used only as a guide. These printed colors are close approximations of our epoxy resin worksurface colors and may not be exact. For matching and specification, please request physical samples to see the most accurate representations of our epoxy resin worksurface color choices.*

## Epoxy Tops Select Colors for Epoxy Worksurfaces

Formaspace offers Epoxy worksurfaces and laboratory products in even more options with our Select Colors palette. In addition to our Signature Core Colors range, the Select Colors set includes Alpine White, Bronze, Forest Green, Ivory, Pacific Blue, Pearl, Pewter; Platinum, Sand and Steel Blue.

To learn more about these products and request samples in any of our Select or Signature Core color offerings, please send your request to a representative via email at [hello@epoxytops.com](mailto:hello@epoxytops.com), or call 844.735.6438 to make your request over the phone. With your color choice(s), quantities required, and contact and delivery information, a representative will be happy to fulfill your request.

*Disclaimer: This color chart is to be used as a guide only. Printed colors are close approximations of our worksurface colors, but due to numerous factors of printing on paper, they may not be exact. For specific color-matching, physical samples will work best for viewing the most accurate representations of our worksurface color options.*
